

OBA Wiki

Administrator/User Manual

1. Navigation

In the navigation section there are three different options, Home which links to the Home page, All pages Which Show all the available pages in the Wiki and Settings where the user can configure their personal account, or other existing accounts if the user have an administrative role.

There is also another option to look for existing pages in the Wiki which is the search bar; located at the top of the page.

2. Create a New Page

A user with administrative roles have the option to add new pages to the Wiki, where they can click on the "Create" button at the top right corner of the "Home Page".

Once clicked a pop up window will appear asking for the name of the new page to be created.

Once the name is chosen, the user need to click on “Create” button to move the “Create New Document” where they will have the different options to add content to the page.

Is the title of the page to be created.

```
<!-- TITLE: New Page -->
```

Subtitles: is where the user can write the description of the page to be created

```
<!-- SUBTITLE: Here the user can write a small discription of the page to be created -->
```

Different Options to edited the page and add content to the page

There are three levels for headers

To create a Header

H₁

To create a Sub-header

A third level of the headers that go under the sub-header

Then the user can click on “Save Document” to apply all the changes to the page or “Discard” to discard the page.

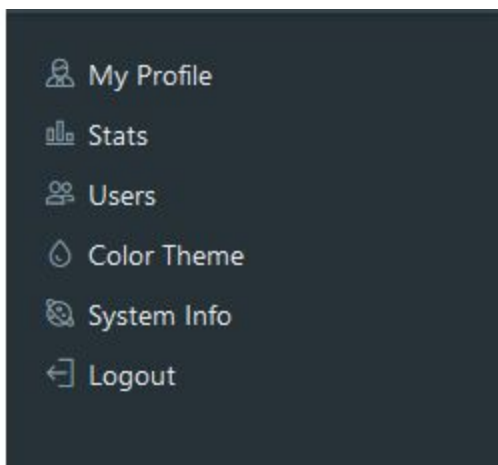

3. Edit a Page

Once the page is created the user have the option to edit the page if they choose, by clicking on the edit page at the top right corner.

4. Settings

For a user with administrative role they have the following options:

Users:

All the registered users in the Wiki will be shown on the Users page

	Guest	guest
	Guest	guest@uregina.ca

Currently the only way to add new users to the Wiki is by manually adding them in the Users page by click on “Create/Authorize User”

[+ CREATE / AUTHORIZE USER](#)

Where their information need to be added
